MARSAL VOICE & BRAND GUARDRAILS

- ✓ Names the person ('Sarah, your Comp 304 grade is in'), never 'Bulk batch'.
- ✓ Email card uses Nile (#0F4C5C) headings and Paper (#F6F0E4) ground.
- ✓ Stamp (#E8553D) appears only once: on the torn stub mark in the footer.
- ✓ WhatsApp uses plain personal text — no logo images or spammy banners.

Channel & Pace Setup — Unhurried & Dependable

Configure human-paced throttling, WhatsApp & SMTP providers, and inspect Marsal's stub status system.

Test All Channels (--channel all)

1. HUMAN PACE & THROTTLING

One message every 5 to 12 seconds, like a person would.

Marsal releases slips through a throttled queue with uneven gaps so sending feels personal and protects accounts from rate bans.

MIN_DELAY_SECONDS	MAX_DELAY_SECONDS
5.0 s	12.0 s

RANDOMIZED DELAY WINDOW (5.0s – 12.0s)

DRY-RUN SAFETY MODE (--dry-run)

Simulates tearing & handing over all 48 slips and logs to SQLite without live transmission.

E.164 PHONE NORMALIZER (src/utils/phone.py)

Default Region: Egypt (EG +20)

- 01120844781 → +201120844781
- 1012345678 → +201012345678
- +20 155 555... → +201555554321

CREDENTIAL VAULT (.env)

All SMTP App Passwords and Meta Cloud tokens are isolated in .env (git-ignored).

```
